

Conception Kit™

Enhancing your opportunity to conceive... the Cap is Key ...because getting pregnant involves more than timing.

The Conception Kit is \$459 USD

Includes everything shown above *Free shipping & handling within North America*

The Conception Kit™ contains everything a couple needs to greatly increase chances of becoming pregnant over a three month period:

- **Three Conception Caps**
- **Three non-latex semen collectors**
- **Twenty four ovulation predictors**
- **Two conception timing wheels**
(one English & one French/Spanish)
- **One medical provider note & envelope**
- **Three pregnancy test kits**
- **One instruction manual**
- **One journal to record progress**
- **Three samples of sperm friendly intimate moisturizer**
(have been included for comfort during sex)

The Kit costs \$459 USD for a three-month regimen.

This contrasts to clinical infertility services, which can start at \$500 for a one-time intracervical injection to beyond \$18,000 for a one-time, in vitro fertilization (IVF) procedure. Most health Insurance policies will only partially cover the cost associated with infertility treatments or not at all.

The Conception Kit™ can be obtained online and used at home as part of normal sex.
